**Reseller Domain configuration**

1. Point Domain to IP 216.10.245.107

- At your **domain registrar's DNS panel**:

  - Create or edit the **A record** for @ and www to point to 216.10.245.107

- OR update via **cPanel Zone Editor** if cPanel manages DNS directly

  For example: esim.thegrl.in

2. Wait for DNS Propagation

- Typically completes within **30 minutes to 24 hours**, though it may take up to 48 hours. Use tools like *whatsmydns.net* to track progress
